TRA V2 OTC 24-Month Holding Commitment

For qualified members participating in TRA V2 through an OTC discount allocation

Document Version	v1.0
Date	2026-07-08
Project	True Riches Alliance / TRA V2
TRA V2 Mainnet Contract	0x1B2d54f43303020F8D06F4C051C2d173740365F0
Treasury Wallet	0x2d307c06296B4c2dC6746ee5e0A56309ecE5a645
Applicable Participants	Approved OTC participants who have passed KYC / AML review
Commitment Period	24 months from the date TRA V2 is actually delivered to the member’s bound receiving wallet

Important Notice

• This commitment is part of the OTC discount conditions and does not constitute investment advice, a return promise, capital protection or a buyback commitment.
• TRA V2 is a fixed-supply, non-mintable and burnable on-chain token. Its price may fluctuate significantly.
• The member self-custodies the receiving wallet. This commitment is not a technical lock-up and is not a forced token seizure by the project.
• The TRA V2 team may request additional information or reject an OTC request where required by applicable law, regulation or risk review.

1. Member and OTC Information

Member Name / Company Name	
KYC Application No.	
Contact Details	
OTC Order / Allocation No.	
OTC Purchase Amount (USDT)	
OTC TRA Amount	
OTC Discount Terms	Initial reference price 10 USDT; OTC discount 10%; actual price subject to written OTC Order Confirmation
TRA Receiving Wallet Address (BNB Chain / BEP20)	
Payment Tx Hash	
TRA Delivery Tx Hash	

2. 24-Month Holding Commitment

☐ I / We confirm that TRA acquired through a TRA V2 OTC discount allocation is subject to a 24-month member holding commitment starting from the actual delivery date.

☐ I / We confirm that during the 24-month period, I / we should maintain eligible TRA holdings corresponding to the OTC allocation and should not transfer, split, sell or arrange transactions for the purpose of avoiding this commitment.

☐ I / We understand that this commitment does not represent fixed yield, fixed price, capital protection or a buyback arrangement; TRA V2 may be affected by market, liquidity, mining, regulatory and other risks.

☐ I / We agree that the TRA V2 team may monitor member holdings through the bound wallet address, on-chain records and internal OTC records.

☐ I / We understand that if Phase 2 Power Credit / Gold Dynamic Power is officially launched, TRA voluntarily converted or burned into official Power Credit under the official process may be counted as eligible holding if recorded by the official system; final rules will be subject to the official Phase 2 announcement.

3. Handling of Breach

☐ If the member sells, transfers or causes eligible holdings to fall materially below the required commitment level without confirmation from the TRA V2 team, the TRA V2 team may cancel or suspend OTC discount benefits, membership benefits, future allocation eligibility, Power Credit / reward eligibility or other project-related rights.

☐ If the member privately sells, transfers, resells, assigns, lends, pledges or otherwise disposes of TRA acquired through the OTC allocation in breach of this commitment, and such conduct causes or contributes to compliance issues, market disruption, third-party claims, operational harm, reputational harm or other loss to the TRA V2 project or its affiliated parties, the TRA V2 team reserves the right, to the maximum extent permitted by applicable law, to claim against the responsible member for all direct, provable and reasonably foreseeable losses, costs and expenses, including investigation costs, compliance costs, legal fees and third-party claims.

☐ If the member provides false information, acts for an undisclosed third party, avoids KYC, shows suspicious transactions, sanctions exposure or AML risk, the TRA V2 team may suspend processing, request additional information or refuse further services.

☐ Unless otherwise agreed in writing, this commitment does not authorize the TRA V2 team to directly seize TRA already delivered to the member wallet; however, breach may affect membership status and related benefits.

4. Risks and Representations

☐ I / We have read the OTC Guide, KYC / AML Form and this Commitment, and understand the related risks.

☐ I / We confirm that participation in TRA V2 OTC is not based on any capital protection, fixed return, fixed price, listing promise or buyback promise.

☐ I / We understand that blockchain transfers are normally irreversible, and wrong network, wrong address, fraud or private key loss may cause unrecoverable losses.

☐ I / We will independently assess legal, tax and regulatory risks in my / our own jurisdiction and seek professional advice where necessary.

5. Member Confirmation and Signature

Confirmation

• I / We have read, understood and agreed to all terms of this 24-Month Holding Commitment.

• I / We confirm that all submitted information is true, complete and accurate, and agree that the TRA V2 team may retain relevant records for compliance and risk review purposes.
